

FOR LEGAL TEAMS

I have produced well over 500 reports since starting practice in 2014. I currently complete approximately 100 reports per year and accept instructions from both prosecution (60%) and defence (40%) counsel. Clinics in Exeter are available most weeks and occur quarterly in Bolsover Street, London WC1. When required, I am available for domiciliary visits.

I hold Certificates of Training including the Specialist Info. Expert Witness Course (2014) and Medicolegal Advanced Course (2020). I am registered with the Information Commissioner's Office (ref ZA125795) and am compliant with GDPR regulations.

Instructions are welcomed via my Medicolegal Practice Manager - Mrs Marie Carey, contact@orthoreports.co.uk. I have a [medicolegal CV](#) and my terms and conditions are available on request. Typically, reports will be available within 2 weeks of examination. Marie and my Practice Management team ensure the highest standards of accuracy, speed and approachability. I pride myself on maintaining clear lines of communication to ensure that every question, comment and query can be suitably addressed.
